Education

Full Stack Web Developer
Masai School

High School
Army Public School Kota
April 2015 - May 2016

Higher Secondary School
Army Public School Kota
April 2017 - May 2018

**Bachelor of Technology in
Computer Science &
Engineering(CSE)**
Dr APJ Abdul Kalam Technical
University Lucknow
August 2018 - July 2022

Technical Skills

Express.js Node.js
RESTful APIs MongoDB Git
React JavaScript
Software Testing

Soft Skills

Effective Communication
Teamwork Attention to Detail

Anshu Kumari

Full Stack Web Developer

Professional Summary

Dynamic and highly skilled Full Stack Web Developer proficient in the MERN stack. Collaborates effectively with team members to develop functional and scalable web applications. Excels in problem-solving and delivering high-quality results. Experienced in Node.js, Express.js, React.js, MongoDB, and RESTful API development. Updated with the latest web development trends and technologies.

Projects

Globe Gliders [Live Demo Link](#) [Github Repo Link](#)

JavaScript Git HTML5 RESTful APIs CSS3
Responsive Web Design Visual Studio

- Led the development of Customer and Category modules, ensuring robust exception handling, validation processes, and efficient management of the project's GitHub repository.
- Played a pivotal role in a collaborative effort involving a team of 5 members, successfully executing the project within a 5-day sprint.
- Developed and maintained a travel booking platform, with features such as user and admin registration, authentication, CRUD operations for packages and bookings, and dynamic updates of time and date based on user preferences.
- Utilized JavaScript, Git, HTML5, CSS3, and RESTful APIs for frontend and backend development, with a focus on responsive web design and efficient data retrieval from a MongoDB database.

Problem Solving

Time Management

Certifications

Machine Learning

Eisystem

In a six-week internship with EiSystem, led by IIT BHU, I focused on a machine learning project for predicting human diseases. Utilizing algorithms like logistic regression and neural networks, we aimed to advance preventive healthcare. This experience enhanced my data analysis skills and showcased technology's impact on healthcare innovation.

MS Excel

Great Learning

Completed a Microsoft Excel certification from Great Learning, mastering advanced data analysis, formulas, pivot tables, and visualization. Gained skills in statistical analysis, financial modeling, and data manipulation, including automation with macros and dashboard creation. This certification has significantly enhanced my ability to analyze datasets and improve productivity in professional settings.
